THE GREEN ACADEMY

*A Sustainability Camp in English
for Ages 12 to 18*

Summer 2019 in the Black Forest

THE GREEN CITY

Freiburg, the Region and Sustainability

The university city of Freiburg is located in the southwestern corner of the Black Forest. The City is well known for its mild climate and restored medieval old city, whimsically crisscrossed with small canals. In recent years Freiburg has been called the "Green City" due to its Environmental Politics and commitment to sustainability. As a response to these efforts, Freiburg was awarded the first municipality prize for Sustainability in 2012, and was named the most sustainable city in Germany.

In the summer courses offered by the Carl-Schurz-Haus, students will learn in an environment where they can experience the landscape, culture and atmosphere of this unique region. We wish all of our prospective students an exciting learning experience through this small summer adventure, as they explore the ideas of Sustainability, and Environmental conservation through the medium of English.

GO GREEN

LEARN ENGLISH THE GREEN WAY! EFFECTIVE AND LONG LASTING LEARNING THROUGH ENGLISH INSTRUCTION AND INTERACTIVE ACTIVITIES

THE "GREEN ACADEMY – LEARN AND LIVE GREEN" AT THE CARL-SCHURZ-HAUS IS JUST FOR YOU!

The Carl-Schurz-Haus/ German-American Insitut e.V. in Freiburg would like to invite you to join us for an interactive summer program for children and teenagers. Through the use of the English language students will be able to interact with and experience the ideas behind sustainability. Through this program students do not need to take an expensive flight abroad to be introduced to an English immersion experience that uses the natural beauty of the Black Forest region to create an exciting and lively summer adventure. With the instruction by engaging, well trained and experienced native English speakers, students from grades 5 to 12, will be taught in age appropriate groups. These groups will be tailored to each student's individual needs, concerning age, ability and English level.

Full immersion learning is a technique that allows students to fully see a language integrate into their everyday life. The ability to experience a week of full English immersion allows students to learn "SUSTAINABLY".

Parents, who would like to accompany their children, are also welcome. For those interested, a comparable language course with applicable topics (i.e. Buisness English) can be arranged.

Planned Activites:

Visits to the Solar Factory, Ökostation (a charming environmental education center), a hiking day on the Feldberg with a guided Ranger tour, and many other exciting activities in Freiburg and the surrounding area

This brochure was produced with climate-neutral printing.
